**Robinson & Cole Shows Commitment to Environment during Holiday Season**  
*Hartford law firm donates to environmental programs*

HARTFORD, CT (December 10, 2008) – For the 4<sup>th</sup> consecutive year, Robinson & Cole called upon the children, grandchildren, nieces, and nephews of its lawyers, lobbyists, and staff to help design the firm’s holiday card. This year's theme, "Green on Earth," focused on the firm’s commitment to the environment and the children were asked to draw their favorite thing about our planet Earth. In honor of each winner, Robinson & Cole made monetary donations to organizations whose missions included environmental education.

In the Hartford area, the firm presented *A Mountain Classroom* with a \$2,500 contribution. *A Mountain Classroom* is an intense academic program in environmental science for students from Hartford Public Schools. The program has educated more than 140 students in its 4 years of existence.

In the Stamford area, the firm presented *SoundWaters* with a \$2,500 contribution. *SoundWaters* is the leading environmental education organization on Long Island Sound. It provides children and adults with an understanding and awareness of what they can do to restore, protect, and preserve Long Island Sound and the environment.

In the Boston area, the firm presented *The Boston Harbor Association* (TBHA) with a \$2,500 contribution. TBHA is the leading harbor advocacy group working to promote a clean, alive, and accessible Boston Harbor. Founded in 1973, TBHA offers creative and innovative programs that help to educate the public and build a consensus for a clean and alive Harbor.
