[GozNym Malware Attack Hits Two Law Firms for Over \\$117K in Losses](#)

Two law firms were among the latest victims of the GozNym malware attack that caused a combined loss of more than \$117,000. Law enforcement authorities recently announced the dismantling of a cybercrime network that used this GozNym malware to attempt to steal an estimated \$100 million from victims in the United States and around the world. GozNym malware was designed to steal personal and financial information from victims, sometimes starting with phishing emails to the affected companies. [Read more](#)
