Leveraging Knowledge to Manage Your Data Risks

## CYBERSECURITY

### [CISA Recommends Following Microsoft's Mitigation for Zero Day Exploits](#)

Microsoft recently [issued](#) mitigation steps for vulnerabilities that are being actively exploited by threat actors. Microsoft stated that it is aware that two vulnerabilities are being actively exploited to access users' systems. [Read more](#)

### [Killnet Takes Credit for Disabling State Websites](#)

Killnet, a Russian-speaking hacking group that emerged shortly after Russia invaded Ukraine, took [responsibility](#) last week for deploying a denial-of-service attack that temporarily took several U.S. states' websites offline. [Read more](#)

## NEW + NOW

### [State Bar of Georgia Reveals Security Incident to Employees and Members](#)

The State Bar of Georgia recently disclosed that it was the victim of a cybersecurity incident in April 2022, when an unauthorized individual accessed its systems and compromised the data of current and former employees and "some members of the State Bar." [Read more](#)

## DRONES

### [NFL Urges Lawmakers to Address Drone Threats and Nefarious Actors](#)

Cathy Lanier, the Chief Security Officer for the National Football League (NFL), is concerned about unauthorized drones flying above stadiums during games and the potential for accidents or even a mass attack on the crowd below. Last season, the NFL encountered some 1,400 drones over stadiums, even though there were no-fly-zone orders in place. [Read more](#)
